## "Nobody Beats RD850"

### • Best Performance on All Bands

Advanced Datadyne Technology™ gives the RD850 exceptional sensitivity & consistency, even identifying weaker Ka band signals.

### • Rejects Common Sources of False Alerts

Most detectors experience increased "falses" with increased performance, but our patented Intermediate Frequency Rejection Technology™ and advanced filtering eliminate harmless signals.

### • Accurate Warnings Without Added Distraction

You'll get clear and distinct alerts from the ultra-bright LED display and small speaker. Once the source is identified, audio alerts turn off while video alerts continue. You can also switch to a soft click that "geigers" with greater intensity until you've passed the threat.

### • Versatile & Convenient

The system includes everything needed to mount the RD850 to your dash, visor or windshield. Plugs into a standard power port and dismounts in seconds for use in a different car.

### • Total Protection, Guaranteed in Writing

Read the back panel to learn about our exclusive Speeding Ticket Guarantee.

### Get the RD850 Circle of Protection™

Only the RD850 gives you all-band radar and total laser protection from the front - the rear - and even senses side signals that aren't dead ahead or behind.
